Michael O. Callaghan  
Secretary

22 October 2002

Mr. Dominic O'Connor  
Commander, Atlantic Division  
Naval Facilities Engineering Command  
Environmental Quality Division  
Code: 1823  
Lafayette Annex, Bldg. A  
6506 Hampton Blvd.  
Norfolk, Virginia 23511-2699

**SUBJECT:** Final Field Evaluation of Passive Diffusion Bag Samplers at  
Site 1 and 10,  
Allegany Ballistics Laboratory, Rocket Center, West Virginia

Dear Mr. O'Connor:

The West Virginia Department of Environmental Protection/Division of Waste Management has reviewed the Draft Field Evaluation of Passive Diffusion Bag Samplers at the Allegany Ballistics Laboratory Superfund Site Rocket Center, West Virginia.

WVDEP concurs with the use of the Passive Diffusion Bag Samplers. However, random low flow purge samples should be collected to verify the correlation of the sample collection method.

If there are any questions or if you require further clarification, please contact me at (304) 558-2508 or E-mail: [tbass@dep.state.wv.us](mailto:tbass@dep.state.wv.us).

Sincerely,

Thomas L. Bass  
Environmental Resource Specialist  
Division of Waste Management  
Environmental Remediation  
Superfund Group
